

Acciaio

Leghe di ferro e carbonio con percentuale di carbonio inferiore al 2% trattata per resistere agli agenti atmosferici con l'esclusivo processo anticorrosione EMU-Coat.

Steel

Iron and carbon alloy, with carbon content below 2%, treated to withstand the elements with the unique EMU-Coat anti-corrosion process.

Alluminio

Leghe di alluminio, particolarmente idonee per la lavorazione a freddo e per la pressofusione, trattate opportunamente per resistere agli agenti atmosferici e verniciate a polvere.

Aluminium

Aluminium alloys, particularly suitable for cold-working and for die-casting, appropriately treated to withstand the elements and powder coated.
